COURSES

B.Com Finance/Co-operation + M-PAT

This course is designed to deliver the best possible educational experience for students with a wide range of commerce and management skills coupled with a thrust on the practical domain.

Most of the Universities, therefore, design their graduation programme in such a way that their students are exposed to general business and commerce principles and practices, and much required accounting and quantitative skills. On completion of the course, students are really prepared to take up a career.

BBA+ MSTP

This degree is all about providing students with a broad spectrum of knowledge and skills in the functional domain of an organisation, and their interface encouraging students to specialise in a particular area. BBA Programme thus expose students to a variety of core subjects and allow them to focus on one single discipline.

This degree develops in the students practical managerial skills, communication, and business decision making skills. This course incorporates a multiple range of training and practical experience in the form of case studies, presentations, internships, industrial visits, and interaction with experts in the industry.

BCA + Graphic Design

BCA provides the graduates with necessary skills and knowledge to take on appropriate professional positions upon completing graduation and grow into leadership positions or pursue post graduate studies and research in the field.

The programme is designed in such a way that graduate grasps the fast changing trends in technology.

At this course, we address the five pillars of IT curriculum Programming, Networking, Web systems, Information Management and Human Computer Management in the most cutting-edge manner.
